FRANCE'S WAR LOSS IS 1,400,000 KILLED

600,000 Houses Gone; 75, 000,000 Acres Laid Waste.

Panis, May 79 .- What is perhaps the first concise and comprehensive statement of France's war losses has just been made by Capt. Andre Tardieu, former French High Commissioner in the United States. Capt. Tardieu states that during the five years of the war 8,000,000 men were mobilized, of whom 1,400000 were killed, 800,000 maimed and 300,000 wounded. France thus lost 57 per cent. of her men under 32 years

dieu states that 600,000 houses were de-stroyed, 75,000,000 acres of areable land laid waste, and 3,000 miles of railroad and 25,000 miles of highways destroyed. Mines which produced 55 per cent. of France's total coal output were damaged or destroyed; 11,500 factories, which be fore the war produced 95 per cent. of the woollen goods, 90 per cent of the linen material, 70 per cent of the sugar and 60 per cent of the cotton goods,

One-third of France's ships were sunk by German submarines. To defray the cost of munitions of war and food supplies. France had to raise more than 8,000,000,000 france, of which sum she was forced to lend 1,320,000,000 to 10r-

## Go to a Legitimate Dealer and Get a Legitimate Tire

HIS year the American people are going to be more critical than ever about their automobile tires.

Tires are one of the largest items in the motorist's budget. The cost is making even careless buyers think and inquire.

And the more they inquire, the smaller will grow the influence of hearsay and the irresponsible tire dealer.

We have all met the man who takes his opinions readymade.

He tells everything he knows. He knows more about every car than the man who made it, where to buy the cheapest truck-how to get the biggest bargain in tires.

He always arouses a certain amount of wonder in the unknowing. They never think to ask him where he gets his secrets.

"Somebody says" and "every-

Worn frogs and switches often cause small cuts, which are rapidly enlarged by the action of gravel and moisture. Ruts and track slots pinch the tire, wearing away the tread where their edges strike it. It is well to avoid such places as much as possible.

body does" are responsible for more wrong impressions about tires than anything else you can think of.

It is on the people who come under the influences of these phrases that the irresponsible dealer thrives.

You generally find him with the name of a standard tire displayed in his windows to give an impression of quality.

But when you get inside the first thing he begins to

What the thoughtful motorist is looking for today is better tires.

The quality idea—the idea of a quality tire, of a dealer who believes in quality—is commanding a greater respect from a larger portion of the motoring public all the time.

It is the idea on which the United States Rubber Company was founded-on which it has staked a greater investment than any other rubber organization in the world.

Build a tire that will do more, a better tire than was built before, and you are sure of a large and loyal following.

We have never been able to build enough U.S. Tires to go around.
